

# Grand Oaks LLC

For immediate release: **Equine Biosecurity Measures**

3/4/2021 10:15 AM

Effective immediately no horses may enter the Grand Oaks resort until further notice. Any horses currently residing at the resort are advised that if they leave reentry will not be permitted.

Grand Oaks LLC is taking steps based on the awareness that Equine Herpesvirus (EHV-1) has been identified in the Ocala area and possibly elsewhere in Florida. As we continue to monitor the events we are choosing to protect our equine partners from contamination from visiting horses and suggest the following;

- Take temperatures twice daily and record them on the temp card at your stall. Temperatures that exceed 101.5 must be reported to management immediately.
- Do not share equipment and maintain distances between other horses.
- No cases have been reported on property and changes to that will result in immediate notification and transfer of any suspected individual to a secure area.
- Current horse show competitors (unless they depart the property) are not affected by this order as they are being temped and evidence of vaccine is in hand.

If you have questions call the management office at 352-750-5500 or contact Tom Warriner, VP and Managing Director at. [tomw@thegrnadoaks.com](mailto:tomw@thegrnadoaks.com).
